

Centennial Jing-Zhang AI Innovation Belt

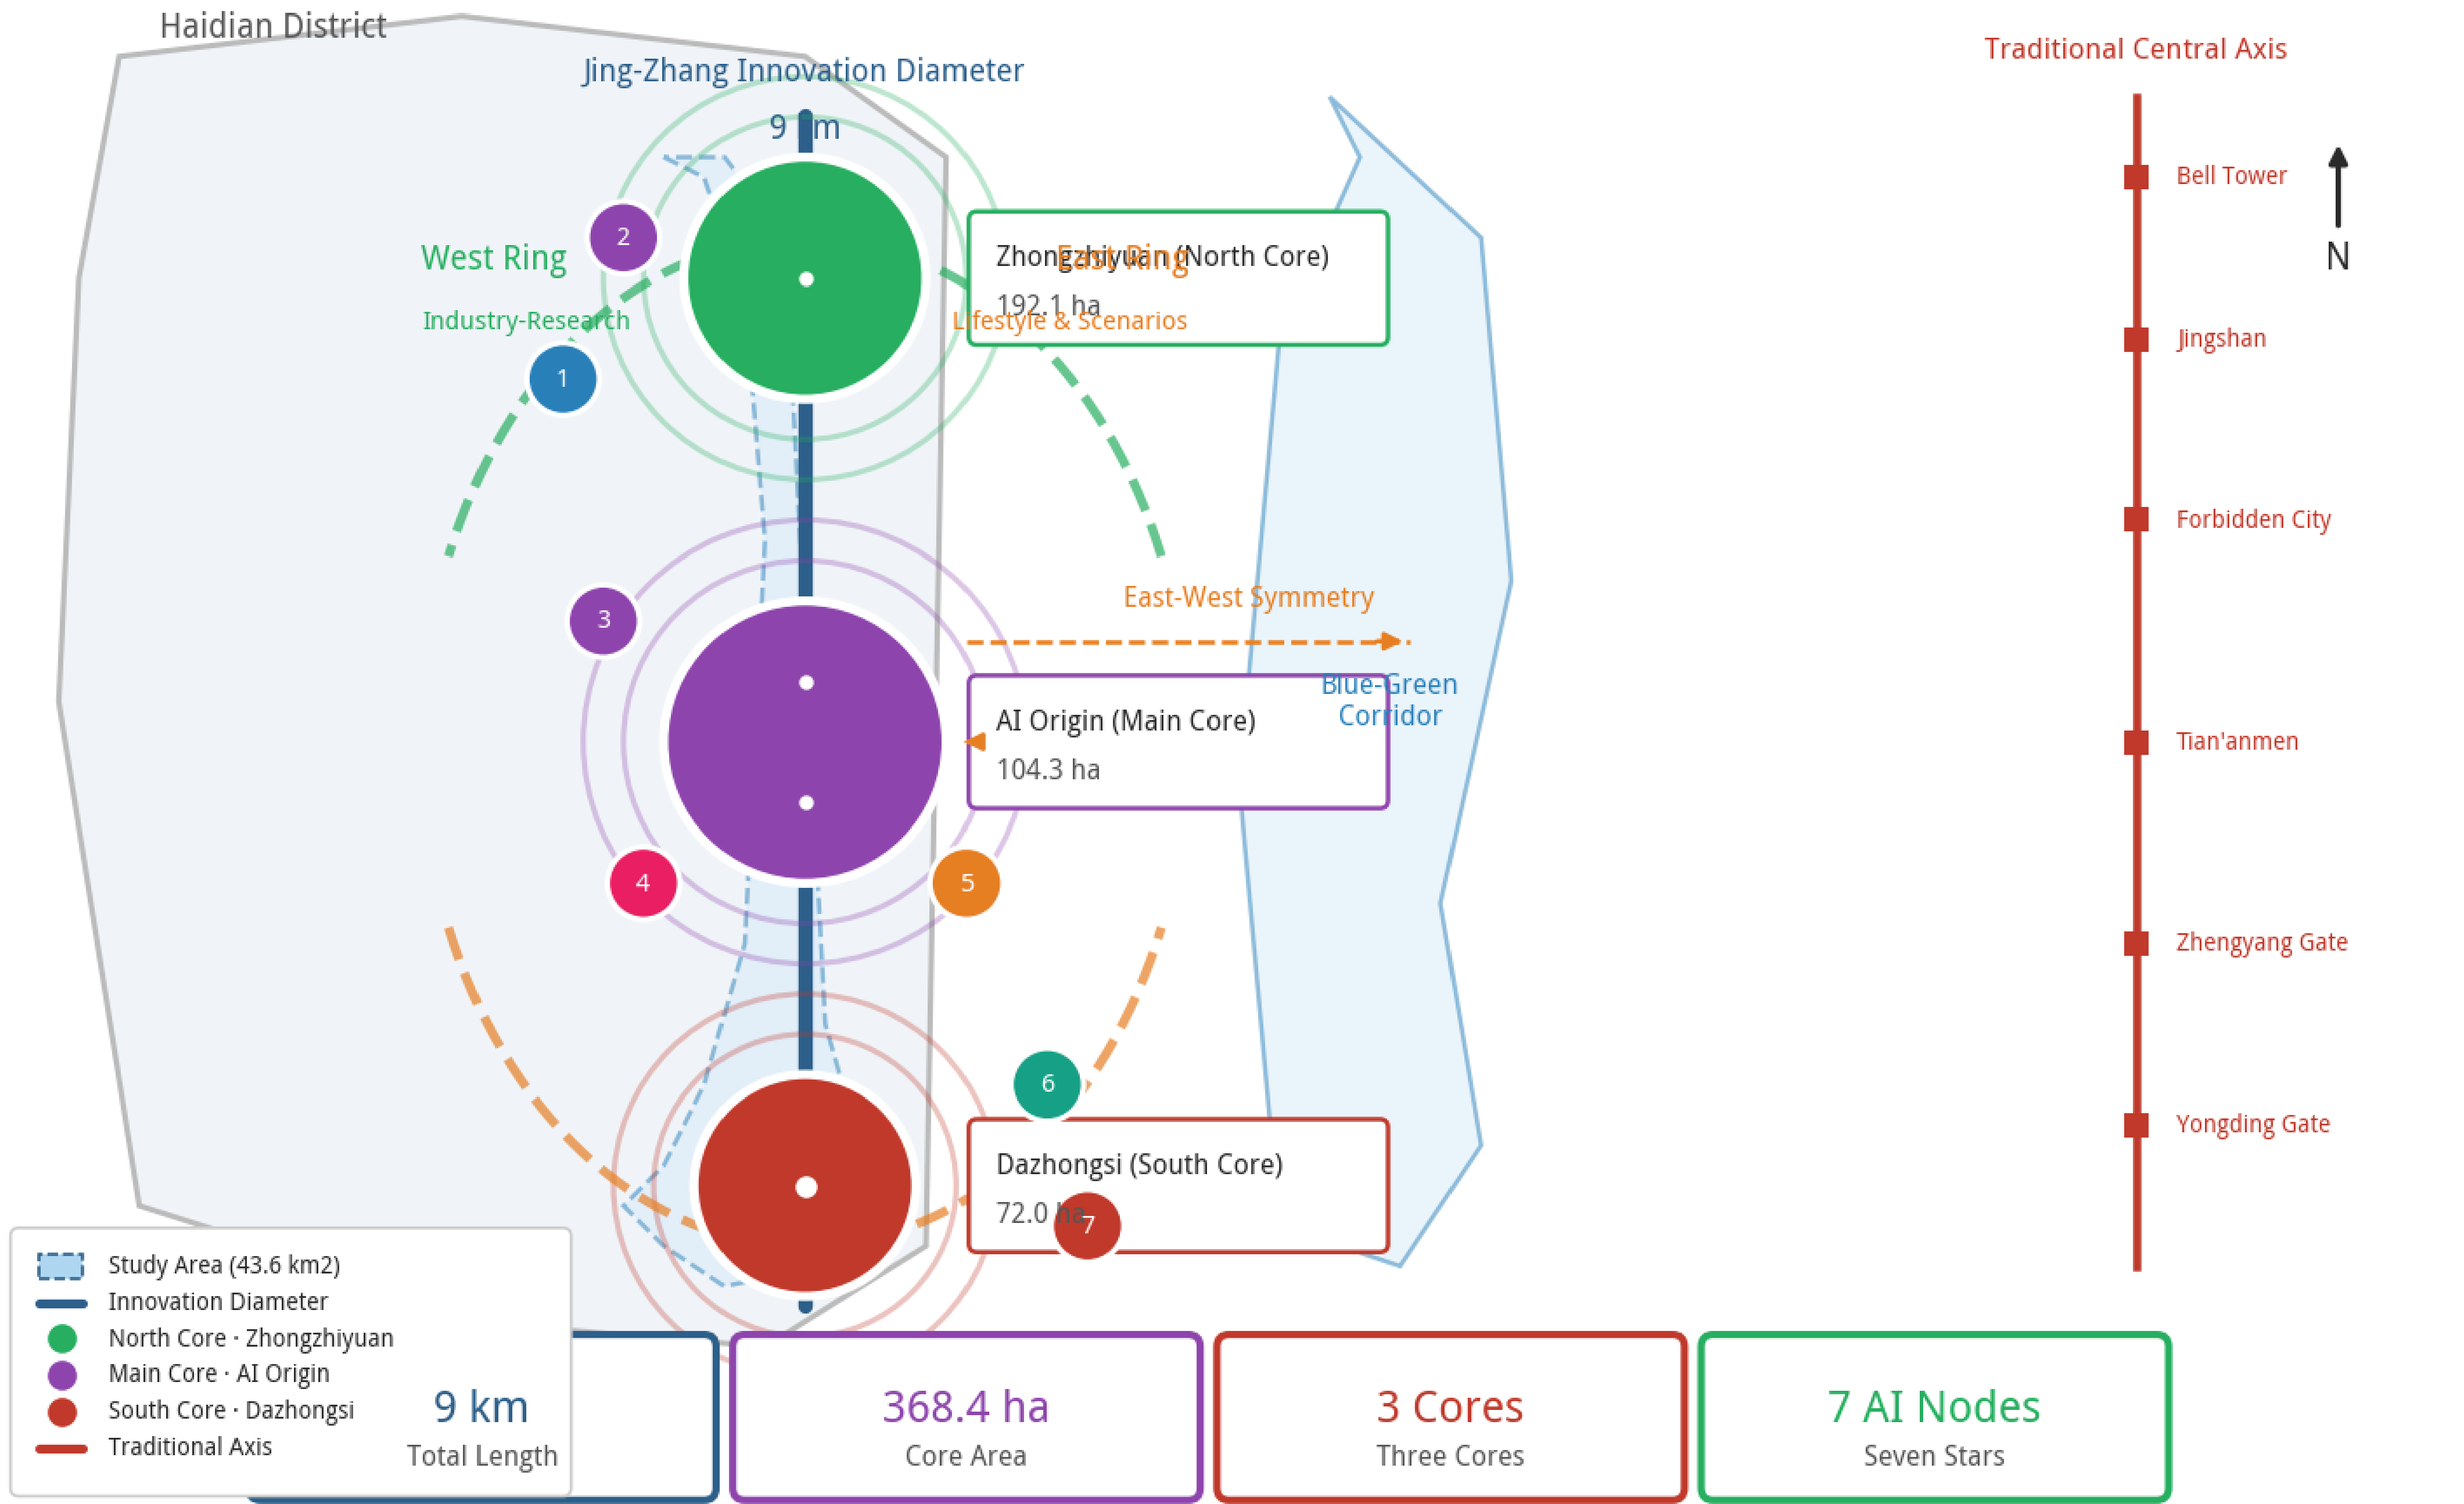

Diameter Urban Design Proposal

One Axis · Three Cores · Two Rings · Multi-Yards

Site Overview

Diameter AI Innovation Belt — Site Masterplan

Total Length: 9 km · Core Area: 368.4 ha

Source: Conceptual · Provisional Boundary

Conceptual Masterplan — Not to Scale

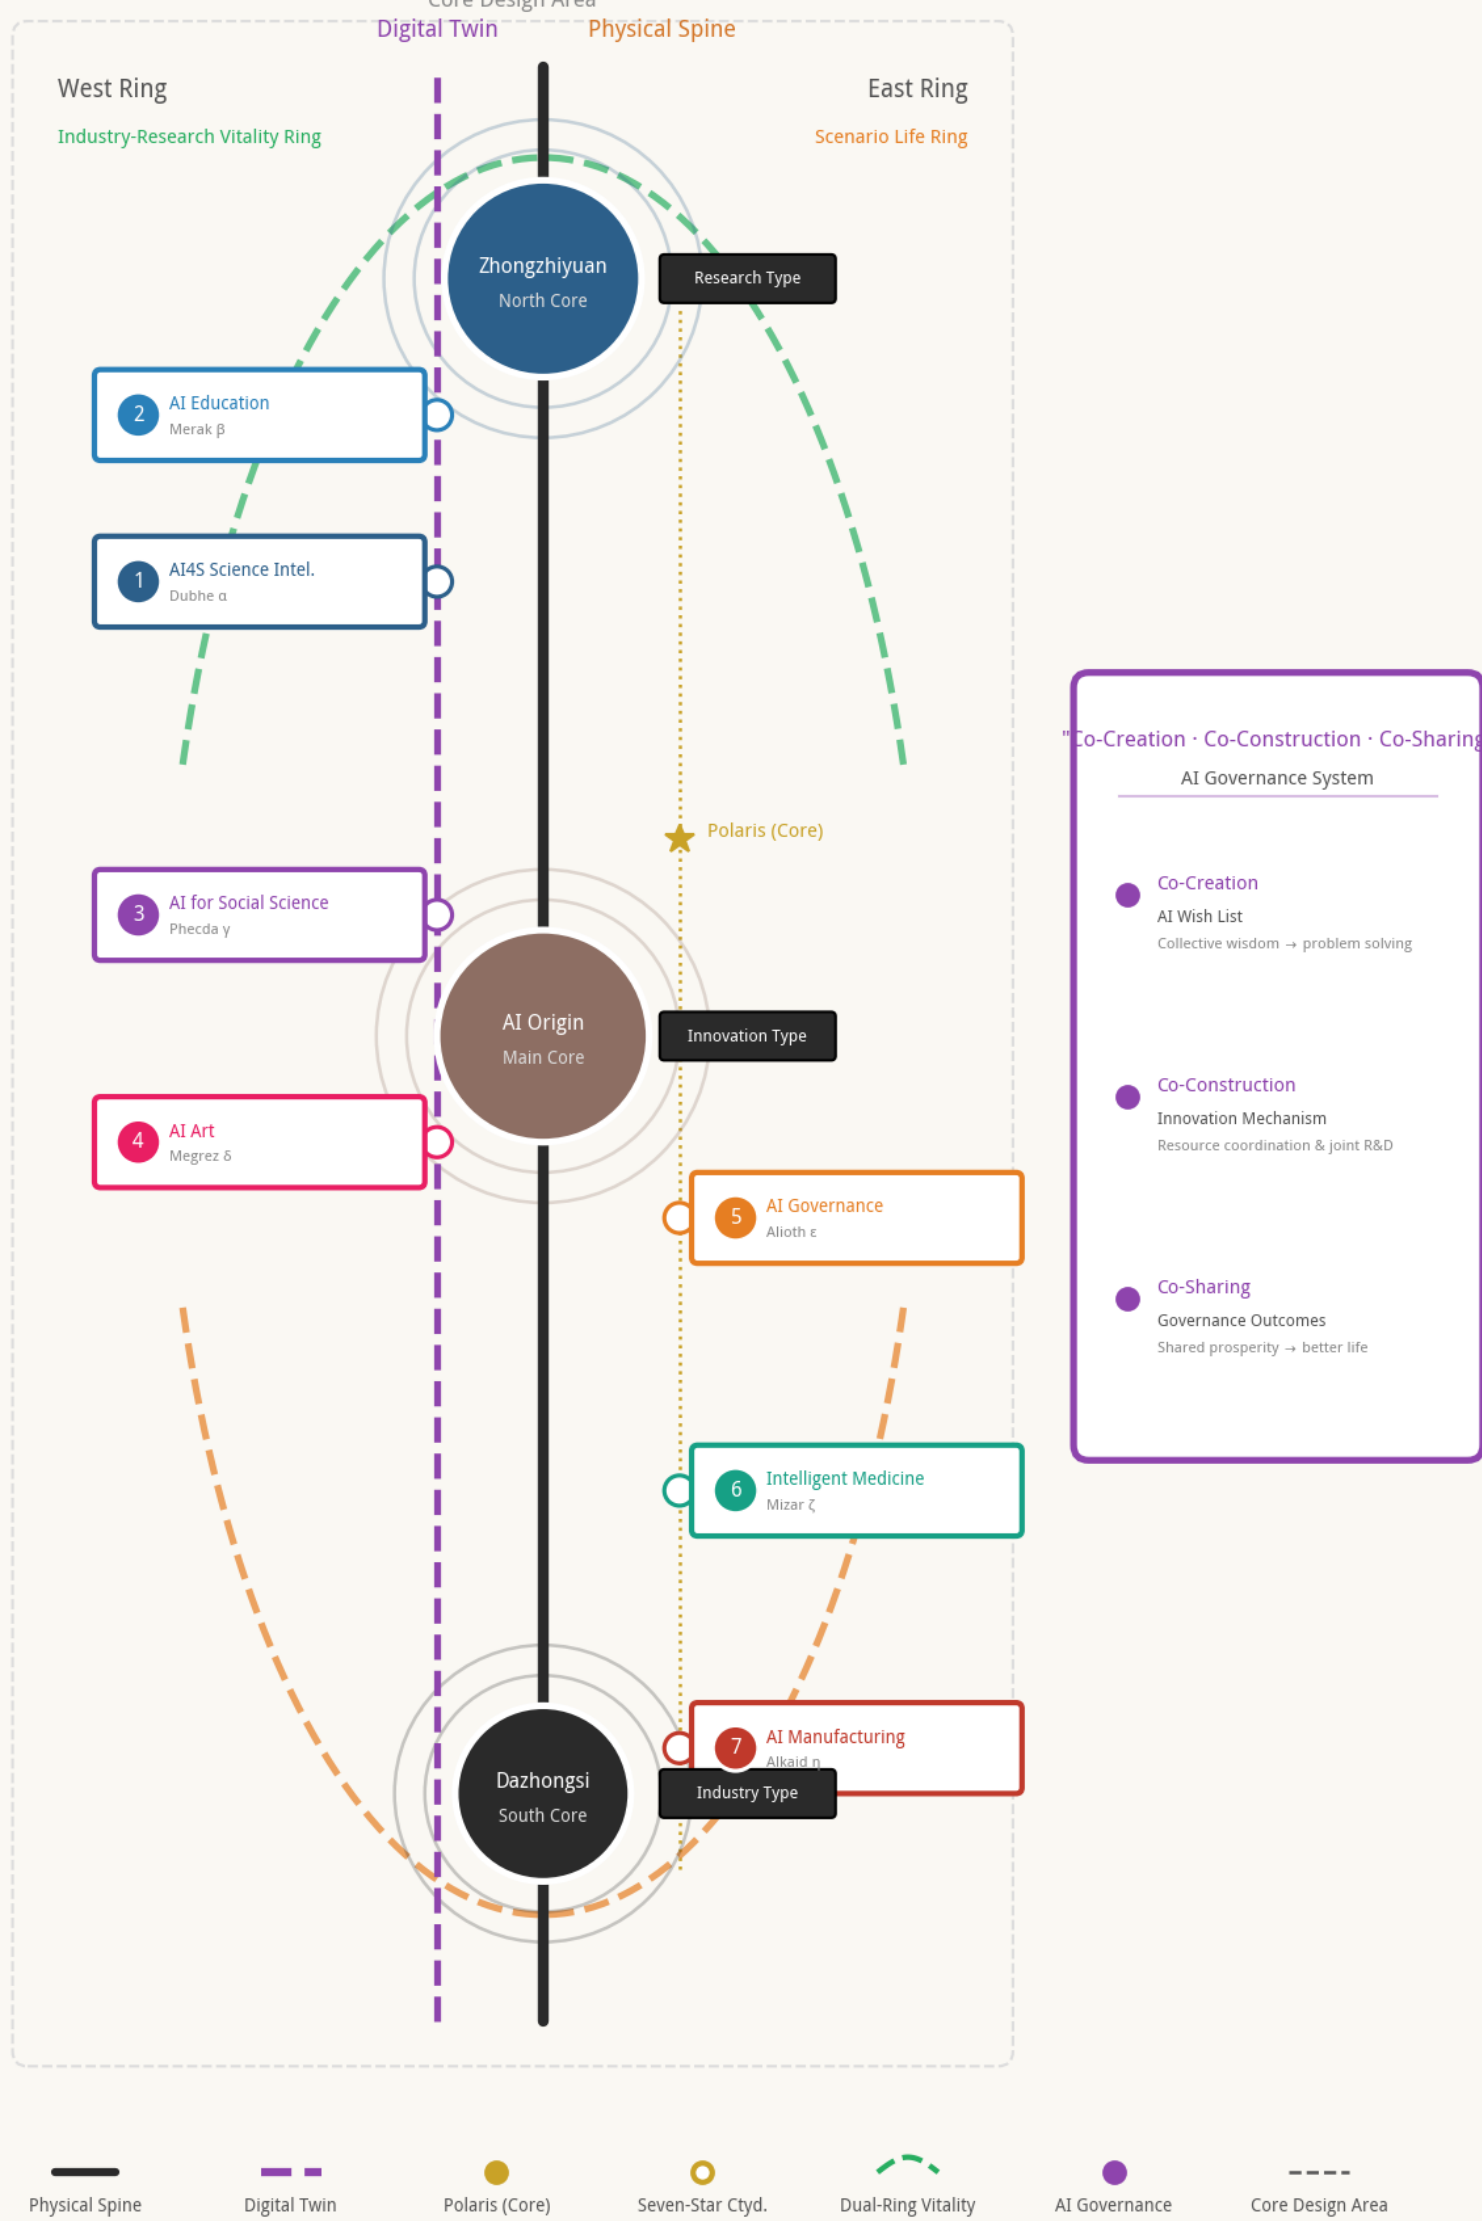

Overall Spatial Structure

One Diameter · Three Cores · Two Rings · Multi-Yards · Seven Nodes

Spatial Structure Diagram

Diametric Spatial Structure · Dual Corridor

One Axis · Three Cores · Two Rings · Multi-Yards · Co-Creation · Co-Construction · Co-Sharing

Structural Elements & Key Indicators

Element	Description	Key Indicator	Scale
One Diameter	9km Jing-Zhang Innovation Diameter: integrated walking, cycling & innovation exchange spine, the central axis of tech innovation in western Beijing	Walk-bike-innovation trinity	9 km
Three Cores	Zhongzhiyuan North Core (original innovation) · AI Origin Main Core (talent vitality) · Dazhongsi South Core (industry transformation)	North-Middle-South tiered layout	368.4 ha
Two Rings	West Industry-Research Vitality Ring + East Scenario Life Ring, symmetrically distributed east-west, forming dual-ring vitality pattern	East-west symmetric dual ring	2 rings
Multi-Yards	Seven-star courtyard system along the diameter, 300-500m density, forming innovation micro-space network with step-by-step scenery	Innovation micro-space network	7+ yards
Seven Nodes	AI4S · AI Education · AI for Social Science · AI Art · AI Governance · Smart Medicine · AI Manufacturing, seven-star layout along the axis	Seven-star Beidou spatial pattern	7 nodes
