

Diameter AI Innovation Belt

Centennial Jing-Zhang AI Innovation Belt

Urban Design Proposal

Professional Design Package

Submitter: PKU-FranklinWang

Package Type: Professional Design Package

Version: v5.13.0

Date: 2026-09-04

Location: Haidian District, Beijing

Conceptual Proposal for Discussion Only

Core Concept & Spatial Structure

Chapter 1

The proposal takes "Diameter" as the core concept, upgrading the Jing-Zhang Railway Heritage Park from a linear green belt into the "Jing-Zhang Innovation Diameter" — a technological innovation axis in western Beijing. It echoes the traditional ritual axis in the east, forming Beijing's dual-axis urban pattern of "one ancient-one modern, one cultural-one technological."

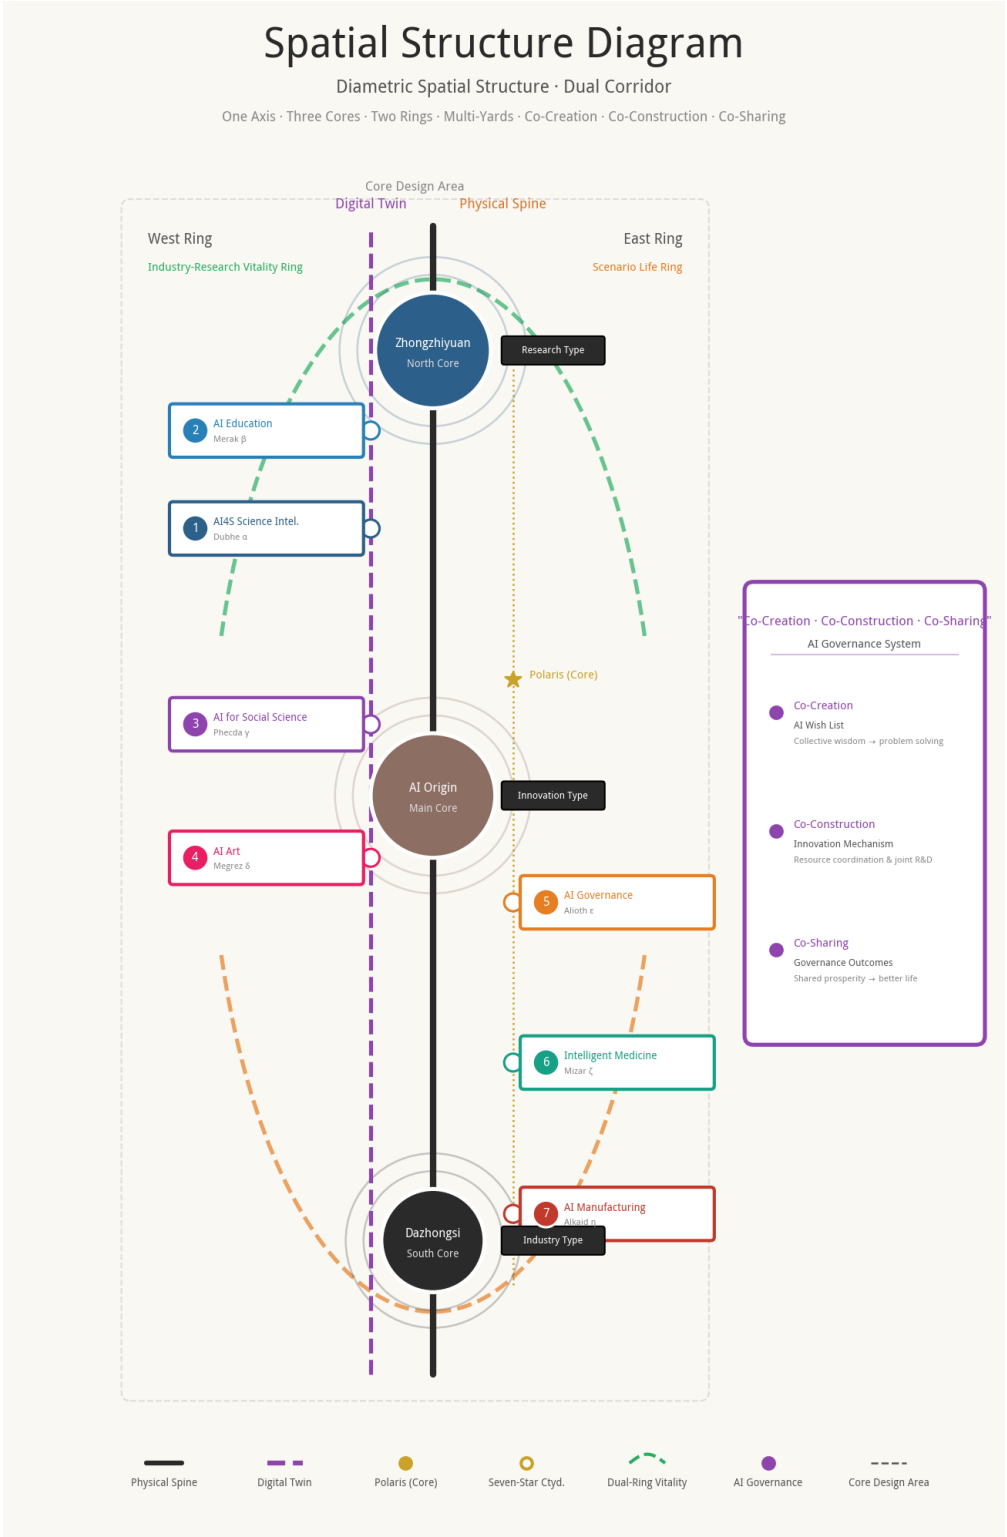

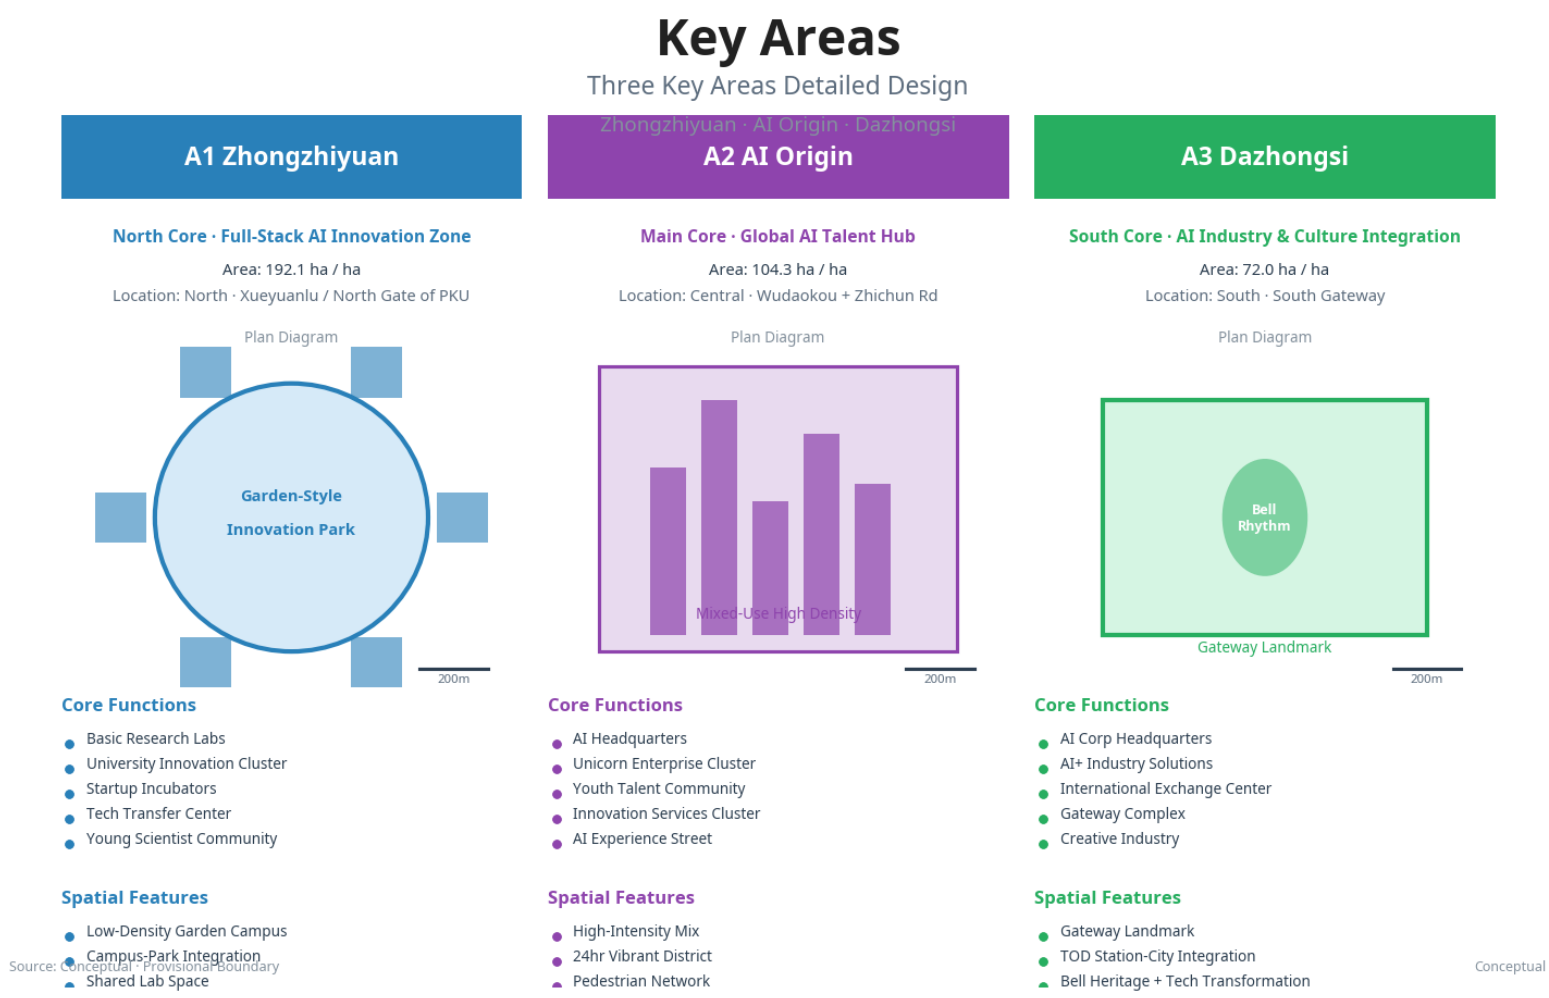

Figure 1 · Diameter Spatial Structure Diagram

Spatial Structure: One Diameter · Three Cores · Two Rings · Multi-Yards

- One Diameter (Jing-Zhang Innovation Diameter): 9km north-south corridor for walking, cycling, and innovation exchange
- Three Cores: Zhongzhiyuan (North Core · Original Innovation), AI Origin (Main Core · Talent Vitality), Dazhongsi (South Core · Industry Transformation)
- Two Rings: West Industry-Research Vitality Ring + East Scenario Life Ring, symmetrically distributed east-west
- Multi-Yards: Innovation courtyards symmetrically arranged along the diameter, forming diverse innovation micro-spaces

Three Key Area Detailed Designs

Mobility, Slow Traffic & Blue-Green Space System

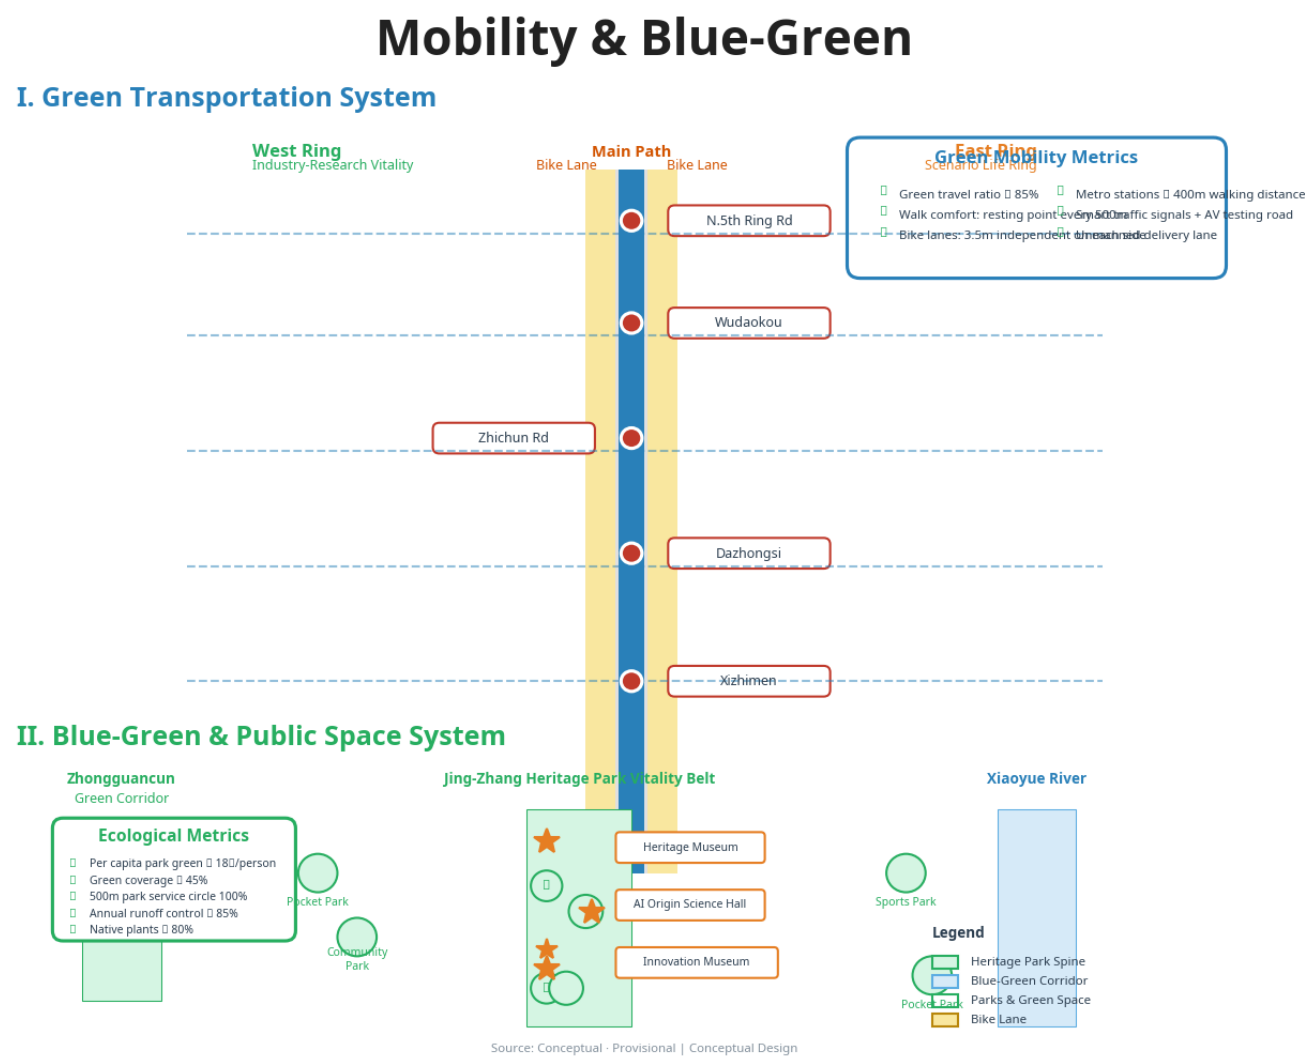

Figure 3 · Mobility & Blue-Green Space System

Green Transportation System

- Build a "rail-dominated, slow-traffic priority, smart-enabled" green transport system, green travel ratio $\geq 85\%$
- Construct running paths, bike lanes, walking paths + green landscape along Jing-Zhang Heritage Park
- One east-west slow-traffic corridor every 500m, stitching together spaces on both sides of the railway
- Smart signal systems, autonomous driving test roads, dedicated unmanned delivery lanes

Blue-Green Ecological Pattern

- "One Spine, Three Corridors, Multiple Points" ecological pattern: Jing-Zhang Heritage Park green spine + three north-south ecological corridors
- Per capita park green area ≥ 18 sqm/person, 500m park green space service radius coverage 100%
- Sponge city construction, annual runoff total control rate $\geq 85\%$
- 100% of core area buildings reach 2-star green building standard, 100% 3-star in core zone

AI Innovation Ecosystem & Key Metrics

AI+ Scenario System (>=10 Scenario Cards)

Scenario	Type	Location
AI+ Smart Transport	Transport Testing	AI Origin Community
AI+ Healthcare	Public Services	East Wing Life Science Park
AI+ Education	Public Services	Xueyuan Road Univ. Belt
AI+ Urban Governance	Governance Testing	Smart City Ops Center
AI+ Creative Design	Creative Industry	Dazhongsi Cultural Zone
AI+ Finance	Professional Svc.	Zhongguancun Tech Corridor
AI+ Energy	Infrastructure	Distributed along route
AI+ Unmanned Delivery	Industry Testing	Inside key districts
AI+ Public Art	Cultural Experience	Along Heritage Park
AI+ Community Services	Life Services	Inside talent communities

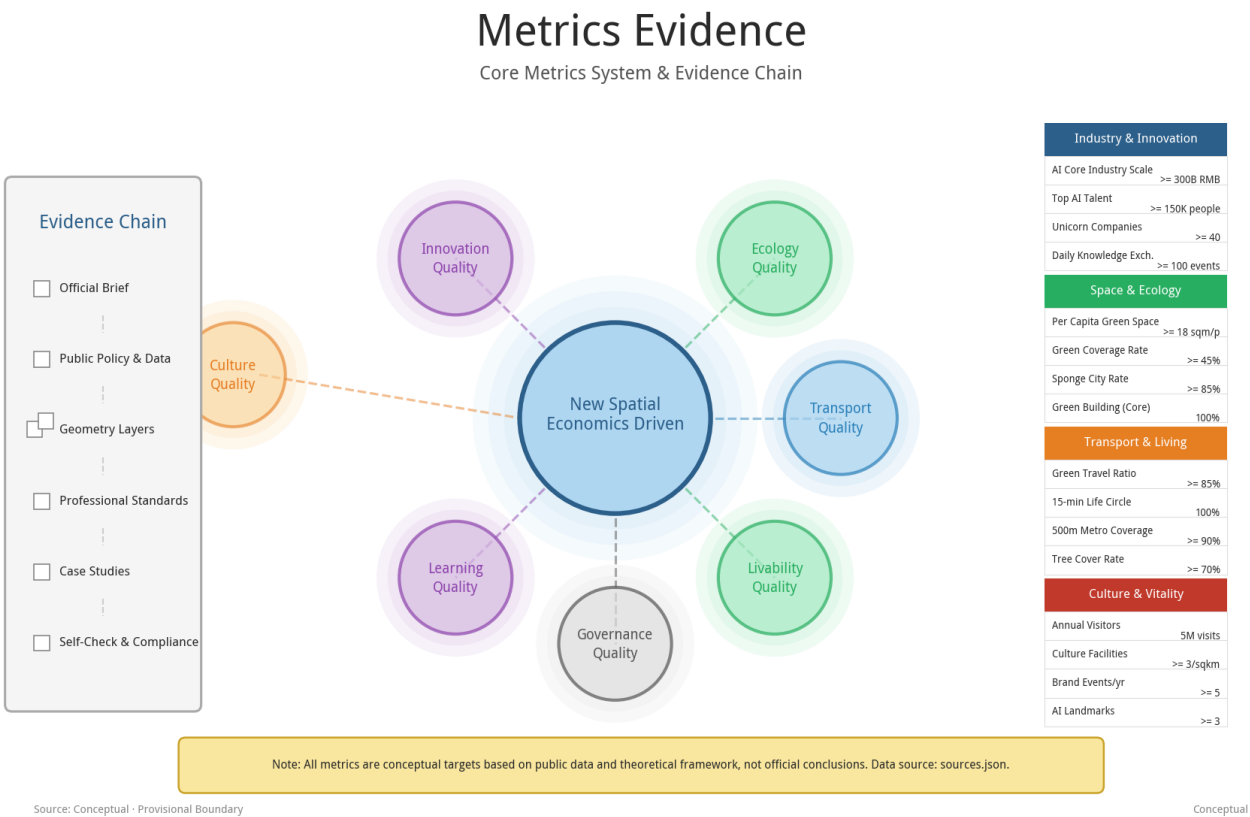

Figure 4 · Core Metrics System & Evidence Chain

Implementation Path & Operation Mechanism

Phased Implementation Plan

Phase	Timeframe	Key Tasks
Initiation Phase	2026-2027	- Lay foundation, build image, showcase models - Comprehensive urban design & regulatory planning - Full-line completion of heritage park - First batch of infrastructure construction
Acceleration Phase	2028-2029	- Scale up, gather talent, show results - Core areas of three districts completed - Introduce AI leading enterprises and top talent - Smart city operation system launched
Maturity Phase	2030+	- Set benchmark, become paradigm, exportable - Fully build world-class AI innovation belt - Form replicable Haidian model - Drive Beijing-Tianjin-Hebei coordinated dev.

Governance & Operation Innovation

- BID model localization: AI Innovation Zone Development Council with enterprise, university, and community representatives
- Three-element collaborative operation: government guidance + market operation + social participation mixed mode
- National system & market vitality balance: advanced planning + institutional pilot + long-term strategic focus
- Innovation promotion fund: enterprises pay innovation promotion fees, Council independently decides usage
- Global AI activity system: Jing-Zhang AI Innovation Culture Festival, Zhongguancun Entrepreneurship Week, Open Source Developer Conference
