|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|                                                                                                                                                                                                                                                                           |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Multi-Yards · Innovation Micro-Spaces</b><br>300-500m Density Network <ul style="list-style-type: none"><li>Co-creation Yard · Open Source Yard</li><li>Roadshow Yard · Coffee Yard</li><li>Maker Yard · Academy Yard</li><li>Cultural Yard · Metaverse Yard</li></ul> |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

| Metric              | Target       |
|---------------------|--------------|
| Belt Length         | 9 km         |
| Study Area          | ~1,500 ha    |
| Key Area            | ~300 ha      |
| Green Travel        | ≥ 85%        |
| Park Green / Person | ≥ 18 m²      |
| 500m Park Cover     | 100%         |
| Green Building      | Core 100% 3★ |
| Sponge City         | ≥ 85% runoff |

| Phase        | Period  | Focus                   |
|--------------|---------|-------------------------|
| Initiation   | 2026-27 | Foundation & prototypes |
| Acceleration | 2028-29 | Scale & talent          |
| Maturity     | 2030+   | Benchmark & replication |
